AMERICAN KRYPTOS BANK COOKIES POLICY

This Cookies Policy explains how American Time Holding LLC and its trader mark American Kryptos Bank use cookies and similar technologies when you visit our websites located at www.americankryptosbank.com, when you interact with American Kryptos Bank online advertisements or emails from marketing. Within the Cookies Policy is explained what these technologies are and why we use them, as well as their rights to control their use.

In some cases, we may use cookies and similar technologies to collect personal information, or information that becomes personal information if we combine it with other information. In such cases, the American Kryptos Bank Privacy Policy will apply in addition to this Cookie Policy.

If you have any questions about our use of cookies or other technologies, please send an email to customercare@americankryptosbank.com.

WHAT ARE COOKIES?

Cookies are small files, usually letters and numbers, that are downloaded to your computer or mobile device when you visit certain websites. When you return to these websites or visit other websites that use the same cookies, the websites recognize these cookies and your browsing device. A cookie can not read data from your hard drive or read cookie files created by other websites.

The cookies established by the operator of the website are called "originating cookies". Cookies established by third parties that are not the operator of the website are called "third-party cookies". The parties that configure third-party cookies can recognize your computer both when you visit the American Kryptos Bank website and when you visit other websites.

We treat information collected by cookies and other technologies as non-personal information. However, to the extent that IP addresses or similar identifiers are

considered personal information in accordance with local laws, we also treat these identifiers as personal information. If we combine non-personal information with personal information, the combined information will be treated as personal information as long as it remains combined.

More information about cookies and their use can be found at www.aboutcookies.org or www.allaboutcookies.org.

WHY DO WE USE COOKIES?

When you access our Services, we may place cookies on your computer or other device. These technologies help us to better understand the behavior of users and inform us about what parts of our websites people have visited.

We use our own and third party cookies to recognize you as a customer of American Kryptos Bank, customize the Services, content and advertising of American Kryptos Bank, measure the promotional effectiveness and collect information about your computer or other access device to mitigate the risk, help to prevent fraud and promote trust and security.

We may place cookies from third-party service providers that may use information about your visits to other websites to target advertisements for products and services available at American Kryptos Bank. We do not control the types of information collected and stored by these third-party cookies. You should check the third-party website for more information on how they use cookies.

We may use the non-personal information collected as follows:

We may collect and store details of how you use our Services. Except in limited cases to guarantee the quality of our Services through the Internet, this information will not be associated with your IP address.

We may collect information such as your language, zip code, area code, unique device identifier, reference URL, location and time zone so that we can better

understand the customer's behavior and improve our Services. We may collect information about customer activities on our website, which is used to understand which parts of our Sites and Services are of most interest. These data are aggregated and, therefore, are considered non-personal information for the purposes of this Privacy Policy.

WHAT TYPES OF COOKIES DO WE USE?

We use the following types of cookies:

Strictly necessary cookies: These cookies are essential because they allow you to move around our Services and use certain functions in our Services. For example, strictly necessary cookies allow you to access secure areas. Without these cookies, some Services can not be provided.

Performance / analytics cookies: These cookies collect information about how you use a website, through which information will be collected about the pages you visit more frequently, how long you spend on that page or if you receive error messages from certain pages. These cookies do not collect information that identifies you. The information collected by these cookies is anonymous and is only used to improve the functioning of our Services.

Functionality cookies: These cookies allow us to remember the options you take and adapt our Services so that we can provide you with relevant content. A cookie of functionality can remember your preferences (country or language selection) or your username. Session cookies; We use session cookies when you access our website or content. Session cookies expire and no longer have any effect when you log out of your account or close your browser.

HOW LONG WILL THE COOKIES BE ON MY NAVIGATION DEVICE?

The time during which a cookie will remain on your browsing device depends on whether it is a "persistent" or "session" cookie. Session cookies will only remain on your device until you stop browsing. Persistent cookies remain on your navigation device until they expire or are deleted (that is, after you have finished browsing).

WHAT OTHER SIMILAR TECHNOLOGIES DO AMERICAN KRYPTOS BANK USE?

In addition to cookies, we may use other similar technologies, such as web beacons, to track users of our Services. Web beacons, or "transparent gifs", are small graphics with a unique identifier, similar in function to cookies. They are used to track the online movements of web users.

Unlike cookies, which are stored on the hard drive or device of a user's computer, transparent gifs are embedded invisibly in web pages and are small in size. At American Kryptos Bank we use web beacons for the reasons stated above in the "Cookies", but mainly to help us better manage the content of our Services by informing us what content is effective.

We may also use so-called "flash cookies" (also known as "local shared objects or" LSOs ") to collect and store information about your use of our services, the prevention of fraud and other operations of the site.
